

NEW FRONTIERS IN NUCLEAR PHYSICS AND ASTROPHYSICS-1

FIRST CIRCULAR

The first international workshop of the series 'New Frontiers in Nuclear Physics and Astrophysics-1' will be held at Akdeniz University, Antalya, Turkey on May 28- June 1, 2018. This workshop is jointly organized by the University of Wisconsin, Tohoku University and Akdeniz University. The scientific program will be devoted to the latest experimental and theoretical research in Nuclear Physics and Astrophysics. The topics will include the following subjects

-Fusion below the barrier

-Nuclear Structure

-Exotic Nuclei

-Nuclear Astrophysics

Information about the meeting can be found on the conference website:
<http://nnpa.akdeniz.edu.tr/>

We invite the experts and young researchers to provide a forum for discussion on the latest experimental and theoretical studies in nuclear physics and nuclear astrophysics. The workshop program will constitute mostly invited talks. With aim of encouraging young researchers, we also invite them to present their work as short talks during the meeting. The number of participants is limited to 40 participants for this workshop.

The registration and abstract submission are open now. The registration fee is 300 Euro for the regular participants, 150 Euro for the students. The registration fee covers coffee breaks, banquet and excursion. Participants can deposit the registration fees in cash at the registration desk during the meeting. You can make online registration and submit your abstracts via the link below.

<http://nnpa.akdeniz.edu.tr/registration/>

Please note that the deadline is 1st of May 2018 for the registration and the abstract submission.

All the guests will accommodate in the guest house of Akdeniz University. The accommodation will be arranged by the organizers after registration. The price is 50 Euro/day and it includes breakfast, lunch and dinner.

We look forward to see you in Antalya,

Baha Balantekin
